“SEEING THE WORLD THROUGH SCREENS OF CULTURAL IMAGES”

GALLERY OF SCREENS

Introducing the *GALLERY OF SCREENS*, a custom furniture design & production studio. The gallery will offer custom high-end culturally refined functional art furnishings for the private and corporate art collector. Its mission is to create the most distinguished artistic designs of our time, giving the world an insight into the soul of cultures long past. The *GALLERY OF SCREENS* operates under the creative inspirations of designer Vincent I. White. His vision and skills have brought together a compelling symmetry of cultural art and history. As a result of Mr. White's vision, an impressive collection has emerged that expresses both spiritual and cultural messages of wisdom and tradition. This collection has 12 uniquely designed signature screens for the home and office. Each is hand crafted in solid hardwoods and the finest veneers from around the world, hand finished to an extraordinary degree... spectacular from any vantage point! Each screen will feature the works of artist from around the world or fine art reproductions displayed within the panels, telling stories of cultures long passed.

DECORATIVE FOLDING SCREENS ♦ ORIGINAL FINE ART & REPRODUCTION ♦ CULTURAL EDUCATION

Thank you for your interest in the Gallery Of Screens owned by Vincent I. White. The majorities of our creations are custom designed for each client or limited editions available to individuals through Architects, Interior Designers and Fine Art Galleries.

One-of-a-kind custom pieces require a non-refundable design fee of \$500.00, half of which is applicable to the final cost of production if commission is initiated within 30 days of presentation.

The design process involves working with the client in creating a custom masterpiece by choosing the style of screen, exotic hardwoods and finishes, fine art reproductions or custom fine art for the panels, glass panels, or bronze sculptures for the keystones or glass panels at the top.

50% of the cost of production is required to initiate production with the remainder due before delivery. Delivery and installation are not included. Allow 2-3 weeks for design development and 8-16 weeks for construction.

The Gallery Of Screens also produces large-scale public art and fine art for corporate and private residences on a per-project basis.
